

**TUCK BUSINESS
BRIDGE PROGRAM**

Capstone Project

Tuck

The Capstone Project: What & Why?

Why

- Advance “soft” and “hard” skills
- Practice ownership and leadership
- Showcase in job interviews
- Integrate & apply coursework

What

- Select public company
- Analyze external and internal environment
- Identify what matters (aka “value drivers”)
- Develop insights
- Incorporate in model
- Estimate fair value
- Present findings

What is the fair price per share?

If a financial investor were to acquire the whole company, how much should they pay?

Your role:

An independent analyst – working in IB or in transaction advisory services – advising the buyer about the fair price per share

What are the building blocks?

Analysis x Insights x Modeling x Delivery

Valuation: Analysis x Modeling

Analysis x Modeling

- Select public company
- Analyze its business and financials
- Go from analysis to insights
- Develop valuation model
- Determine how much the company is worth

Strong market dynamics and a profitable business model suggest Domino's should be valued at \$234 per share

Favorable Market Conditions and Positioning

- Growth will be driven by a sizeable and expanding global pizza market (\$144B and 10.7% '17-22E CAGR)
- Domino's is tapping into consumer ordering trends with industry-leading technology innovation

Proven Domestic Franchise Model

- A corporate controlled supply chain business (63% of revenue) will propel long-run profitability
- Consistency and efficiency are protected by the operational advantages of the model

Mixed International Expansion Strategy

- Strong int'l store development (62% of stores) has contributed to global presence and brand recognition
- Int'l franchise model currently limits revenue potential (7% of total revenue) but has opportunity to grow

Currently Undervalued

- Domino's should be valued at ~\$10B, implying a target share price of \$234, which is 22.5% higher than the current trading price of \$191.

Presentation: Insights x Delivery

Insights x Delivery

- Go from information & analysis to insights
- Craft compelling narrative
- Create visual assets
- Present insights & analysis (20+10 min.)

What does it look like?

NETFLIX

Netflix is undervalued; with strong growth potential, it should be valued at \$130 per share, 7% over its current price

Booming industry

- The video streaming industry is expected to reach nearly **\$25B in revenues by 2020**, growing at 11% p.a.
- Growth supported by increased **media spend**, **device proliferation**, and **international availability**

Market leader

- Netflix is the clear global market leader for video streaming services and is **poised for continued growth**
- With strong original content, best-in-class features, and attractive pricing, **customers are satisfied and loyal**

Poised for globalization

- Currently, **international revenues** make up a comparatively small portion of Netflix revenues
- Rapid **roll-out overseas** and continued **international acceptance** will be a critical growth driver for Netflix

Valuation

- Based on growth trajectory, Netflix is **valued at \$55B**, or **\$130 per share**
- In order to achieve this valuation, Netflix **must reach 150M subscribers** by 2025, up from today's total of 95M

What does it look like?

NETFLIX

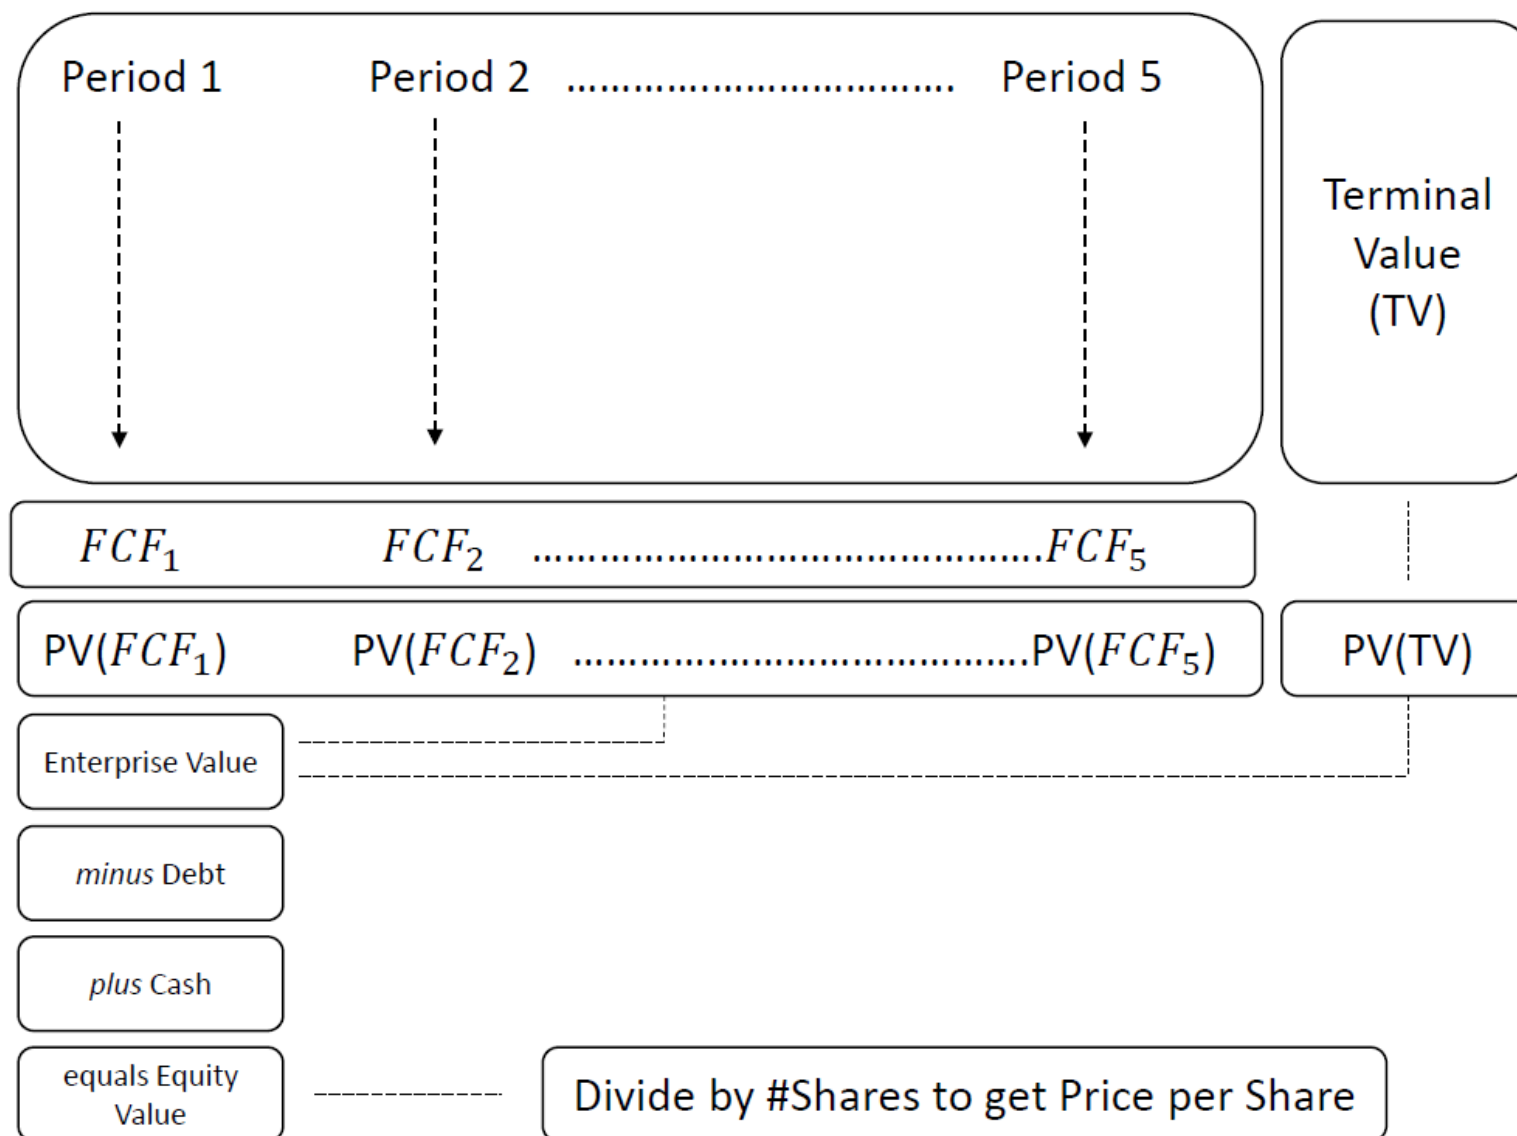

20-minute group presentation + 10-minute Q&A Panel of professionals

- What is the fair price per share?
- How did you get there? **What is your story/value drivers?**
- How does it compare with market price? Why?
- What's a realistic range for the price per share?
- How can a financial investor increase the value of the company?

Valuation

In order to achieve this valuation, Netflix must reach 150M subscribers by 2025, up from today's total of 95M

What goes on behind the scenes?

How does it work?

How the Bridge curriculum helps:

Access & analyze financial statements	Understand the business, interpret the numbers, and generate assumptions	Develop model, choose inputs & put it all together	Craft and present a convincing narrative
–	–	–	–
<i>Financial Accounting</i>	<i>Strategy, Economics, Marketing</i>	<i>Corporate Finance</i>	<i>BusComm</i>
Manage the project and perform successfully as a group <i>Leading Self, Teams, and Orgs</i>			

Deliverables

Week 1

- ☐ Select company
- ☐ Company profile
- ☐ Financial analysis
- ☐ 3-statement model
- ☐ Revenue model

Week 2

- ☐ Economic analysis
- ☐ Strategic analysis
- ☐ Marketing analysis
- ☐ Valuation narrative
- ☐ DCF model
- ☐ Executive summary

Week 3

- ☐ Finalize DCF
- ☐ Finalize executive summary
- ☐ Prepare presentation slides

Time is tight?

- Download a OneStop report for your company from [D&B Hoovers](#). Include competitors, financials, and (usually) a SWOT.
- Search for your company's name or industry in [Statista](#). Download charts & graphs about your company, its competitors, and customers.
- Search for your company's industry in [IBISWorld](#). It will include industry projections, SWOT, and key companies with market share.
- Download an analyst report from [LSEG Workspace](#). Don't feel like [registering](#)? [Email us](#) and we'll pick a report for you.

Want more? The resources below are organized by the deliverables for your project.

Logging In

Some library resources will ask you to log in with your Dartmouth credentials. Hold on to the Dartmouth **netID** and **password** you used to sign into Canvas for these tools.

Feldberg Library Resources

A screenshot of a Dartmouth login interface. The background is dark green with a repeating pattern of stylized evergreen trees. A white rectangular box in the center contains the login form. At the top of the box is the word 'DARTMOUTH' in green. Below it is the email address 'f0040dm@dartmouth.edu'. The heading 'Enter password' is followed by a note: 'Your organizational policy requires you to sign in again after a certain time period.' There is a password input field with the placeholder text 'Password'. Below the field is a link that says 'Forgot your password?'. A blue 'Sign in' button is positioned to the right of the password field. At the bottom of the white box, there is a section titled 'Need more help?' with contact information for faculty, staff, students, and alumni.

DOW JONES
NEWSWIRES

Press Release: CAVA Makes Waves with Debut of Glazed Salmon -- Its First-Ever Seafood Protein

Dow Jones Newswires, English, 738 words, 15 April 2026, 12:14 PM GMT

A new, craveable, protein-packed main featuring bold Mediterranean flavor -- and endless ways to make it your own and elevate your meals -- arrives this spring

WASHINGTON—(BUSINESS WIRE)—April 15, 2026—

CAVA will be introducing Glazed Salmon, its first seafood offering, to its menu on Monday, April 20, bringing a bold, feel-good protein grounded in a defining Mediterranean tradition, where seafood isn't just a staple, but a fundamental way of eating.

This press release features multimedia. View the full release here:
<https://www.businesswire.com/news/home/20260415819896/en/>

CAVA's New Glazed Salmon

With this launch, CAVA continues to deepen its Mediterranean roots, highlighting the bold, vibrant flavors that define the cuisine. Glazed Salmon reflects that brand's commitment to expanding its menu with

CAVA Group's Tech Stack Could Be the Next Growth Lever

Mrithunjoy Kaushik

zacks.com, English, 1,045 words, 4 June 2026

CAVA's CavaCore, Current and Digital Kitchens aim to fuel unit growth to 750 stores - while delivery mix and salmon rollout pressure costs.

CAVA Group CAVA has been leaning on strong traffic momentum, disciplined pricing and broad consumer appeal across income cohorts. Digital ordering and third-party delivery are supporting guest frequency, while menu innovation is keeping engagement high. New restaurants are also performing strongly across markets, reinforcing the long-term unit-growth opportunity.

For investors, the setup now hinges on whether CAVA can keep execution tight as it scales. The company carries a Zacks Rank #3 (Hold) at present, and its operating technology initiatives look increasingly tied to protecting consistency while the footprint expands.

CAVA's CavaCore Sets Up Data at Scale

CAVA launched CavaCore earlier in 2026 as a modern data platform intended to create a unified, scalable foundation for how it manages and uses data. The stated objective is to enable faster execution across the business as it grows.

Sell-in done, year done

Business model difficult to value for listed markets
Magnum has historically generated over 70% of its EBIT in H1. Given the low sell-in rates likely in Jan/Feb, this makes March, April & May vital to the year's profitability.

The good Q1 results (4.5% organic, with 2.9% volume/mix and 1.6% price) and the company's optimism about near-term growth lead us to expect that the "sell-in" for the Northern Hemisphere summer has been positive and that essentially the majority of EBIT for the year has been booked. Given that cocoa costs are hedged 6-9m ahead and ice cream production in Europe peaks at the turn of the year, we
