**Questions
about
tomorrow?
Office Hours**

Capstone Questions

1. Marketing Mix: How is your company adapting its products, pricing, communication, and distribution strategies to meet the evolving needs of its target market? Are there any signs of Marketing Myopia?
2. Brand Equity: What strategies is your company using to enhance brand equity (e.g., awareness, loyalty, perceived value, associations)? How does its Net Promoter Score reflect these efforts?
3. Target Market & Positioning: Is your company's target market sustainable in the long term? How does your market positioning compare to key competitors?
4. Marketing Environment: How is your company responding to two Immediate Environmental factors and two Macro Environmental factors that impact its operations?

MAJOR LEAGUE BASEBALL

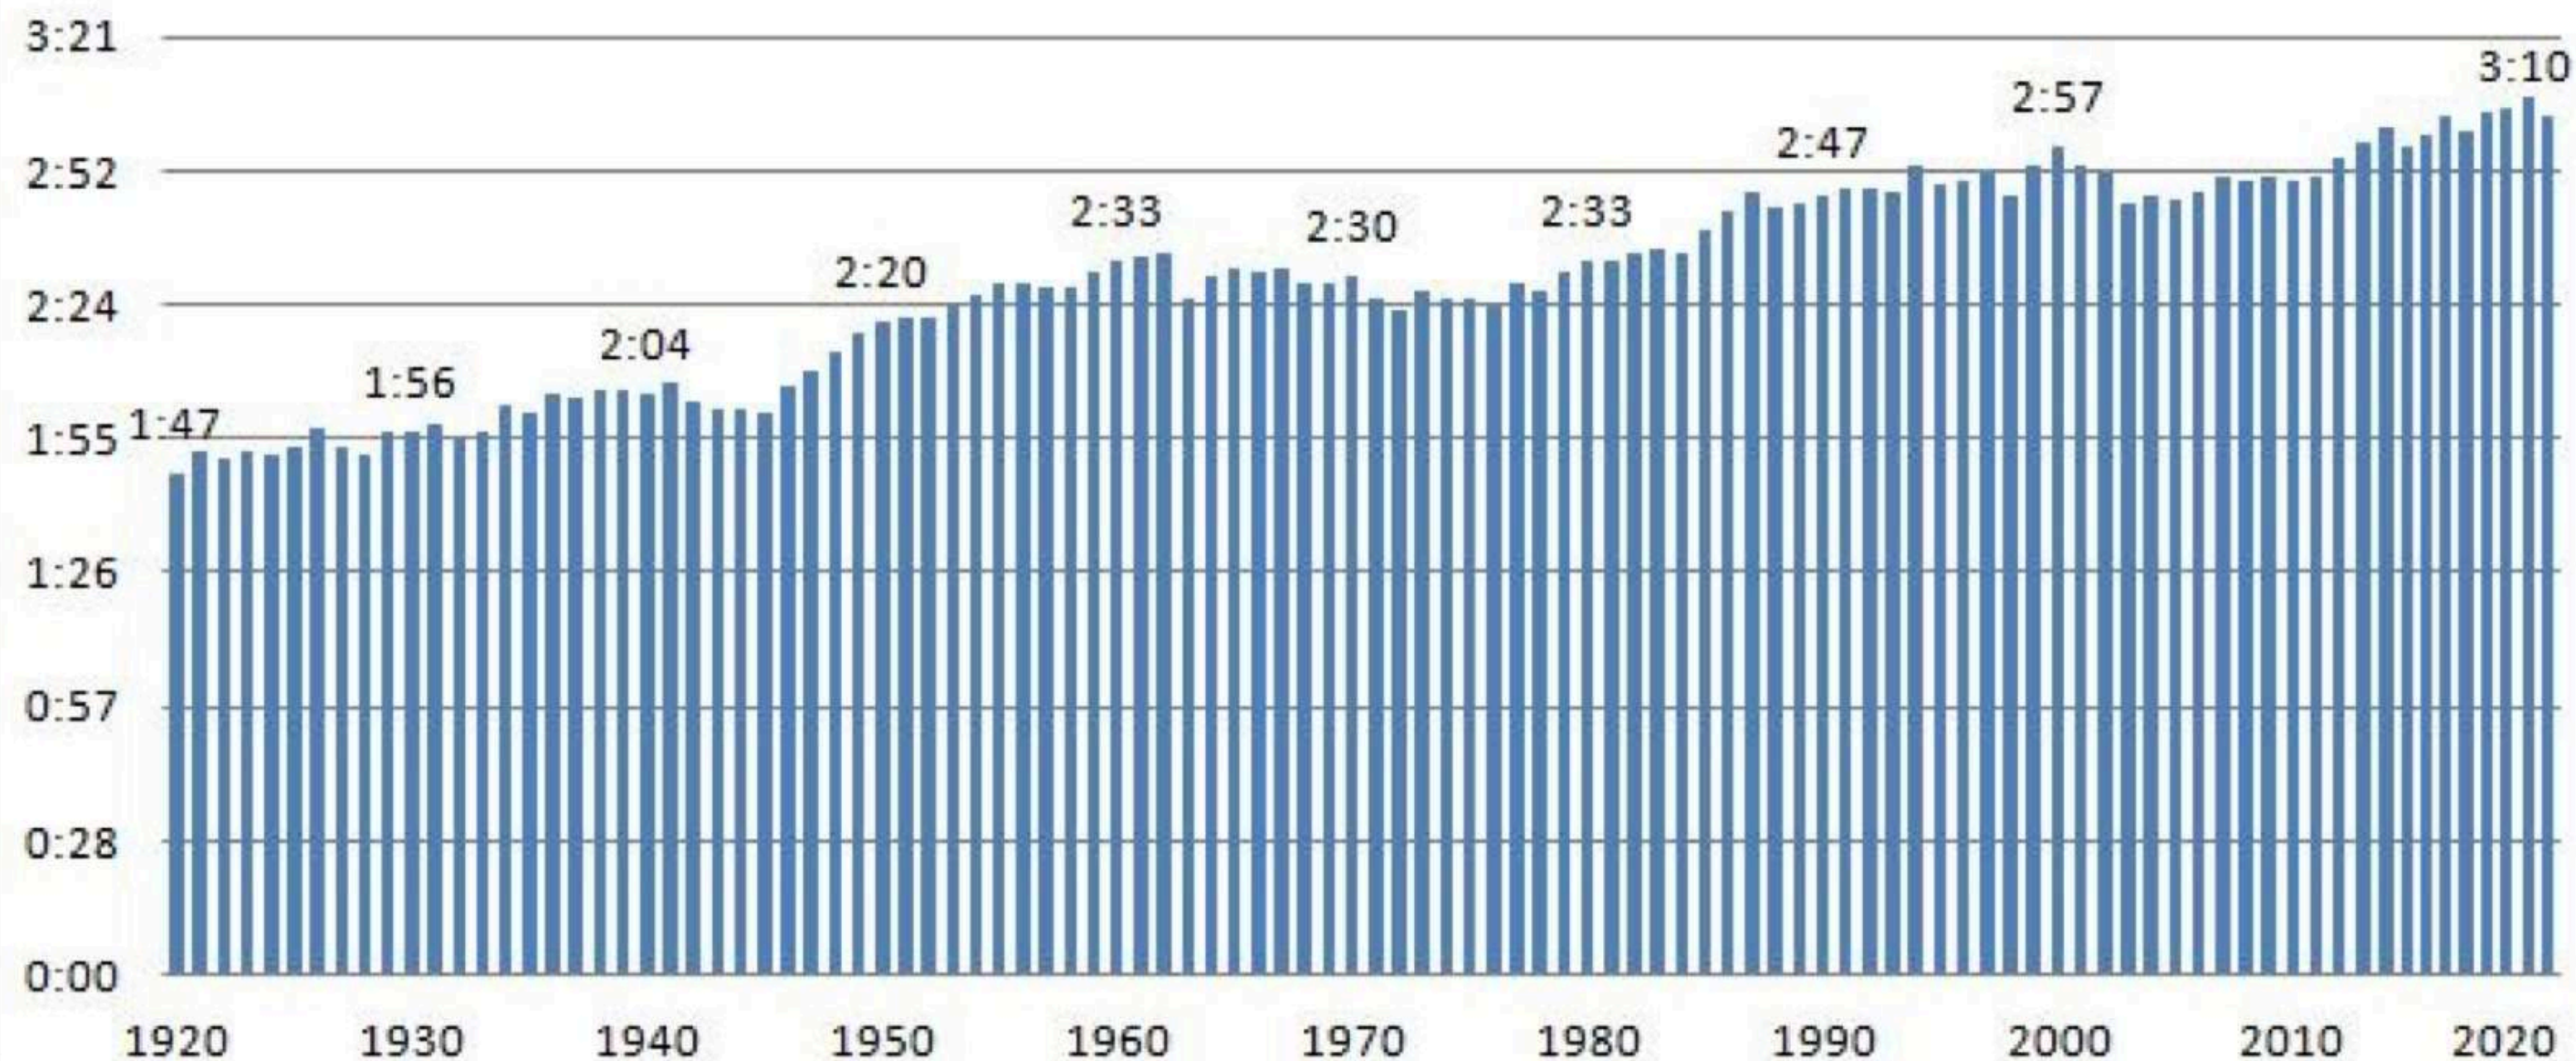

The Year is 2021

Average Game Length, 1920-2022

9 innings or less

adapted from data at Baseball-Reference

↖ The average share of broadcast time showing **GAME ACTION** is highest in the English Premier League — but there is more total action in an average National Hockey League game, which lasts longer.

Games that were included: 10 NFL regular-season games between Nov. 7 and Nov. 18, 2019; 17 MLB postseason games, including all games in the 2019 ALCS, NLCS and World Series; 10 NBA regular-season games between Nov. 6 and Nov. 15, 2019; eight NHL regular-season games between Nov. 5 and Nov. 19, 2019, including three overtime games; and seven English Premier League games between Nov. 9 and Nov. 23, 2019. NBA game action includes free throws, so the action time exceeds the game clock time.

2023 MLB RULE CHANGES - REGULAR SEASON RESULTS

Through Games on 5/11/2023
565 Games (23.3% of Season)

Pace of Play

Overall Results (Through 565 Games)

YEAR	TIME/G*	RUNS/G	AVG	OBP	K%
2023	2:37	9.1	.247	.320	22.7
2022	3:05	8.3	.235	.307	22.6
2021	3:08	8.6	.234	.311	24.2

*9-Inning games only (521 total in 2023)

- 9-inning game time has decreased by 28 minutes compared to 2022, through the same number of games.
- Controlling for the run environment, the year-over-year decline in 9-inning game time is 30 minutes.

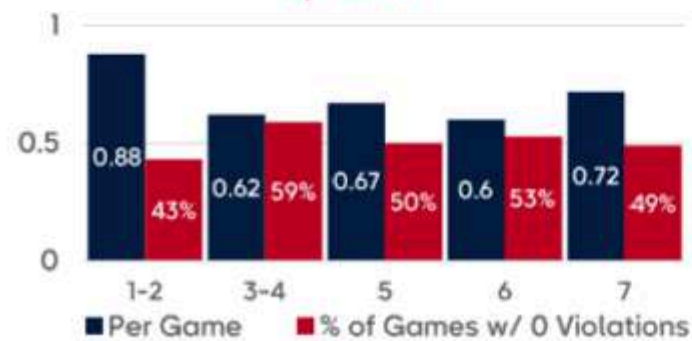

Average Time Remaining on Timer on Pitch Delivery

Inning Breaks / Pitching Changes	Batters	Pitches (Runners On)	Pitches (Bases Empty)
2:15 Timer	0:30 Timer	0:20 Timer	0:15 Timer
8.1	7.2	7.6	6.6

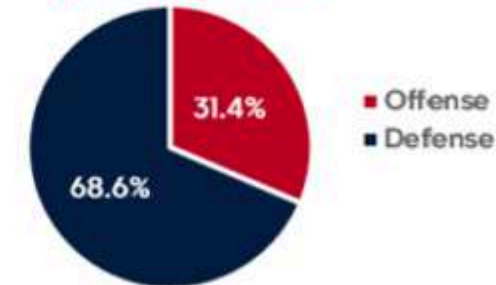

- Pitchers are beginning their deliveries with between 6.6 and 8.1 seconds on the timer, indicating that across all timer settings, pitchers have sufficient time to execute.

Pitch Timer Violations

By Week

Offense/Defense

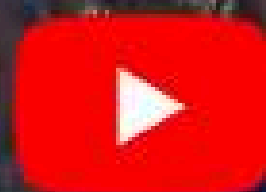

- Violation rates have generally declined throughout the course of the Regular Season as players have adjusted to the pace of play.
- 52% of Regular Season games have had zero violations.
- 69% of violations are committed by the pitcher or catcher.

EXCLUSIVE DAVID MUIR INTERVIEW

TONIGHT ON
abc WORLD NEWS TONIGHT | DAVID MUIR

MARVEL

“Marvel is a great example of that,” he told CNBC. “It had not been in the television business at any significant level, and not only did they increase their movie output, but they ended up making a number of TV series. Frankly, it diluted focus and attention.”

- Bob Iger, CEO Disney

Capstone Questions

1. Marketing Mix: How is your company adapting its products, pricing, communication, and distribution strategies to meet the evolving needs of its target market? Are there any signs of Marketing Myopia?
2. Brand Equity: What strategies is your company using to enhance brand equity (e.g., awareness, loyalty, perceived value, associations)? How does its Net Promoter Score reflect these efforts?
3. Target Market & Positioning: Is your company's target market sustainable in the long term? How does your market positioning compare to key competitors?
4. Marketing Environment: How is your company responding to two Immediate and Macro Environmental factors.

Key takeaways

1

Macro Environment

- How is this impacting your business for the positive or negative?

2

Micro Environment

- What are you learning from your competition?
- Are you beating your competition?

3

The Customer

- How is the marketing environment impacting your consumer?
